### PROJECTS

- **Smart Dustbin Automation System (Major Project)**
  - Designed and developed an automated smart dustbin using ultrasonic sensors, servo motor and microcontroller.
  - Implemented automatic lid opening based on object detection.
  - Integrated sensor-based control to improve hygiene and reduce manual contact.
  - Tested and optimized system performance for reliable and efficient operation.
  - Technologies Used: Arduino Uno, Ultrasonic Sensor, Servo Motor, IR Sensor / C Programming.

### WORK EXPERIENCE

1. **Teacher (1 Year)** – CBSE Board
2. **Technical Club Member** – Actively participated in technical events, workshops and project activities.
3. **Part-Time Artist (Dance)** – Performed in various cultural events and programs.

### TECHNICAL SKILLS

|                       |                                                                              |
|-----------------------|------------------------------------------------------------------------------|
| Programming Languages | : C, Embedded C, Python                                                      |
| Electronics           | : Analog Electronics, Digital Electronics, Microprocessors, Microcontrollers |
| Tools & Software      | : Arduino IDE, Proteus, MATLAB, Keil, MS Office                              |
| Others                | : PCB Design (Basics), LTspice (Basics)                                      |

### STRENGTHS

Problem Solving, Teamwork, Quick Learner, Time Management, Communication Skills

### LANGUAGES KNOWN

Odia, Hindi, English

### DECLARATION

I hereby declare that the information furnished above is true to the best of my knowledge and belief. I assure you that I will discharge my duties to the best of my ability and contribute positively to the growth of the organization.
